

## Telehealth Standard

---

Kia ora

The Osteopathic Council is aware that osteopaths may wish to continue to engage with health consumers under their care or to provide care to new clients during the Covid-19 pandemic lockdown and when we return to level 2 or 3. It has therefore developed the following standards to assist you in providing care via Telehealth. Usually standards are developed in consultation with the public and the profession but the Council is of the view that the current pandemic means that we should provide these standards as soon as practicable. They are based on the standards developed by the Physiotherapy Board and the Medical Council.

You can view the Telehealth standards on our website here [https://www.osteopathiccouncil.org.nz/images/stories/pdf/Telehealth\\_standard\\_Mar\\_2020.pdf](https://www.osteopathiccouncil.org.nz/images/stories/pdf/Telehealth_standard_Mar_2020.pdf)

We welcome emailed feedback on these standards.

Ngā mihi

Tim Friedlander
